## ***SITUATIONAL UPDATE AT TROPICAL CABLE & CONDUCTOR LIMITED (TCCL) ON COVID-19: UPDATE 5***

---

Dear Cherished Business Partner,

Following the lifting of the restriction on movement across the country, and the subsequent directive by the Government on the mandatory usage of face masks as a precautionary measure to prevent the spread of COVID-19, all visitors to our factory or sales outlets across the country are required to wear **face masks** before entering our premises.

We are hereby reminding all our stakeholders that the existing protocols (i.e. temperature screening, handwashing, sanitizing and social distancing) still stands and are being enforced. Unfortunately, any persons visiting our premises without wearing face masks, shall be denied entry.

Our top priority is to ensure the safety and wellness of all employees, customers and other stakeholders in these unusual times.

Thank You!

Kind Regards,

**THE MANAGEMENT**

Tropical Cable & Conductor Limited
